

PICKING BOXES WITH ADJUSTABLE DIVIDERS ST6427-0333

DESCRIPTION

Logimarkt stackable plastic containers are produced on standard dimensions, palletizable, with bases within 300×200 mm, 400×300 mm, 600×400 mm, 800×600 mm, but also on atypical dimensions. The stackable crates are stabile, robust and have a long life cycle. The plastic eurocontainers are a great alternative to the one-way packaging used for transportation and storage of various products. They decrease the expenses with multiple supplies, a logistic flow can be developed, and the ratio price/ life cycle is visibly superior.

GENERAL INFORMATION

Reference:	ST6427-0333
External length (mm):	600
External width (mm):	400
External height (mm):	270
Internal length (mm):	565
Internal width (mm):	368
Internal height (mm):	249
Weight (kg):	2.4
Units on pallet:	32
Pallets on truck:	33
